Sustainability

Lombardy's beautiful alpine landscape offers a huge range of options when it comes to adventure sports and outdoor activities. In order to preserve this stunning nature for future generations, we must protect our environment. Ecological, economic and social sustainability form a core part of the WWMG 2024. In every decision, we aim to protect our climate, environment and resources as well as to contribute to greater social equality. You too can do your bit to help! Here are the most important ways in which we show our commitment to making the WWMG 2024 an environmentally sustainable event:

> **YOU CAN HELP!** Use public transport to get around.

We do our best to use as little water as possible. Lombardy's drinking water is of outstanding quality and comes straight from the mountains.

> **YOU CAN HELP!** Use the water bottle we provided in the welcome kit and drink tap water instead of mineral water from plastic bottles.

We are able to save tonnes of waste thanks to reusable plates, dishes, etc. Any rubbish which cannot be avoided is separated and recycled.

All documents are available in digital form and can be downloaded from our website: wwmglombardia2024.it

> **YOU CAN HELP!** Please only print documents that you really need.
